Deploys on a lightweight stand with excellent stand-off capability

Ideal for Assault IEDD, Special Forces, and SWAT teams

Disrupt

Disrupter Cartridges

Supplied with piston and closure cap. Minimum order quantity 90

Classification	Power Device 1.4C UN0276
Packing Group	134
NEQ per box	0.060kg
Packed	Standard steel ammunition box

Attach

Flying Spike

A secure anchor with rigging loop to lift, move, manipulate an object

SPECIFICATION

75mm long, 11mm dia, 40g weight, 130kg lifting capacity

(2.95" long, 0.4" dia, 1.4oz weight, 286 lbs lifting capacity)

The Flying Spike is designed to penetrate into the mass of an object and create an anchor with which to remotely or semi-remotely lift, pull or drag the object.

The Spike carries a strong metal line with a rigging loop which remains outside the object penetrated by the Spike. Operators can attach a tactical pulling line to the loop to manipulate the object either directly or with the assistance of an A-Frame or ROV.

The Spike is capable of penetrating a wide range of materials and can be used for main charge extraction, opening building doors and vehicle doors, creating an anchor for rigging operations, dragging suspicious objects clear and many other tactical events.

Cut

Flying Ceramic Knife

SPECIFICATION

95mm long, 26mm dia, 23g weight
(3.75", 1" dia, 0.8oz weight)

Break

Flying Ceramic Window Breaker

SPECIFICATION

60mm long, 16mm dia, 4g weight (2.3", 0.63" dia, 0.14oz weight)

Disrupt - Cut - Break - Attach
