

SCANMAX 15

A mini-cabinet X-ray scanner which sees inside your mail and provides instant on the spot confirmation of the contents of unusual or unexpected packages, allowing even the smallest office or mailroom to verify its mail.

Rapid scanning technology means items ranging in size from letters and courier packs through to small parcels and handbags can be placed into the inspection chamber and are scanned at the press of a single button.

SCANMAX 15 produces a clear colour image of a packet's contents which is displayed on-screen allowing you to distinguish easily between harmless items and malicious mail and instantly confirm a parcel's safety.

SCANMAX 15

FEATURES

Rapid Screening

Items are placed into the inspection chamber and a single button action produces a clear image of the contents in seconds.

Compact and Easy to Use

The Scanmax 15 is designed for easy use by non-technical staff. The front loading door means there are no restrictions on where the unit can be placed.

Image Enhancements and Options

Images are automatically enhanced for greater clarity with the option to be shown negative or inversed. There is also a 8 x zoom option and 2 colour options for highlighting medium and high density objects, as well as powders, syringes and circuitry.

Safe and Secure

Scanmax 15 uses very low level X-rays and conforms to all published international Electrical Safety and Radiation Standards and is issued with a certified Radiation Safety and Test report.

User Training

A range of Operator Training Programmes and X-ray image recognition charts are available.
