

## ABL DRAGON DE-ARMER

The Dragon De-Armer is designed to render safe a variety of dropped conventional munitions by projecting shaped steel slugs at high velocity into their fuzes or pistols. Dragon can also be used to render safe some IEDs.

The Dragon De-armer is supplied with both a conventional and recoil reducing barrels. When used with the recoil reducing barrel, recoil is reduced from 30m which is typical for conventional de-armers to approximately 5m. This reduced recoil allows Dragon to be used in areas where collateral damage is of particular concern.

The Dragon De-armer is a two piece equipment comprising a conventional or recoil reducing barrel with cartridge chamber and a breech plug into which a cartridge is inserted.

An option anti-tether device can be fitted at the same time, for situations where there is the danger of losing the De-armer at the point of firing, i.e. on a river bank or adjacent to a ship's side.

The Dragon De-Armer is a multi-shot device. Maintenance is straightforward and all tools and equipment are supplied. Spare parts and consumables are minimal and contained in the kit. Cleaning, routine inspection and maintenance can be achieved in a matter of minutes.

Dragon is designed to be deployed manually by placing on a convenient surface, sandbag etc.

Preparation of the De-Armer is straightforward, typically loading and unloading can take less than 30 seconds and may be carried out remotely from the target to enhance operator safety.

Dragon is constructed from corrosion resistant materials.

# ABL DRAGON DE-ARMER

## AMMUNITION

The ABL 900 is operated by a 0.5 cartridge. Each batch of cartridges are ballistically tested to ensure correct and consistent performance. The cartridges are supplied in multiples of 77 packaged within an M2A1 container complete with all internal furniture and all required consumable parts.

## SPECIFICATION

Standard:

Length 205mm  
Dia 60mm  
Weight 3.5Kg

Recoil Reduced:

Length 385mm  
Dia 60mm  
Weight 6.5 Kg

Container: Overall Size 490 X 295 X 160mm

Overall equipment weight 20Kg

## CONTENTS

Barrel Long  
Barrel Short  
Breech Plug  
Anti Roll Restraint  
Slug Chisel  
Slug Plain  
Slug Fork Assy  
O'Ring  
Brush Cleaning  
Brush Handle  
Bottle Oil  
Case Assy  
Instruction Card  
Brush Small  
O'Ring Seal Kit  
Bottle Oil (Empty)
